A NEW WORKSHOP
FOR PARENTS AND PROFESSIONALS TO LEARN HOW TO ASSESS AND DEVELOP INSTRUCTIONAL PROGRAMS TO HELP LEARNERS DEVELOP FUNCTIONAL SKILLS ESSENTIAL TO INDEPENDENCE

The Assessment of Functional Living Skills- The AFLSTM
Administration, Analysis, and Program Development for Individuals of All Ages with a Diagnosis of Autism or Other Developmental Disabilities

BY

JAMES W. PARTINGTON, PH.D., BCBA-D

May 6, 2013

Kansas City, MO

Location:
North Kansas City School District- Doolin Center
1900 NE 46th Street
Kansas City, MO 64116

Behavior Analysts, Inc. is sponsoring this unique training opportunity to educators, parents and other practitioners in the greater Austin area. Dr. James Partington, developer of the Assessment of Basic Language and Learning Skills- Revised (The ABLLS®-R), will be presenting the newly released AFLSTM assessment tool that was developed with Dr. Michael Mueller of Stimulus Publications. The AFLS is designed in the familiar format of the ABLLS®-R and compliments and extends the scope of basic language and learning skills measured by the ABLLS®-R. The AFLSTM includes over 735 functional skills to help ensure that learners of all ages (young children through early adulthood) learn the skills necessary to fully and independently participate in a wide range of home, school and community activities. Continuing Education credit is available!

Don’t Delay! Registration is accepted on a first come first serve basis and seating is limited. We hope to see you there.

Deadline for advance registration- April 22, 2013
Your Presenter:

Dr. James W. Partington, PhD, BCBA-D is the director of Behavior Analysts, Inc. in Walnut Creek, California and Honolulu, Hawaii, and provides services to children and their families. He is a licensed psychologist and Board Certified Behavior Analyst and has 40 years experience working with children with developmental disabilities. He is internationally recognized as a leader in the field of behavior analysis with expertise in language-based interventions. He is the co-author of Teaching Language to Children with Autism or Other Developmental Disabilities and author of The Assessment of Basic Language and Learning Skills- Revised (ABLLS®-R) and Web-ABLLS®. He is known for his work in teaching parents and professionals about practical, evidence-based procedures necessary for effective educational interventions. He has been a faculty member of several universities including West Virginia University, University of San Francisco and St. Mary's College. Dr. Partington is a former President of the Northern California Association for Behavior Analysis and has served as a member of the Behavior Analyst Certification Board. He has co-authored the book, Teaching Language to Children with Autism or Other Developmental Disabilities. He is the author of The Assessment of Language and Learning Skills- Revised (The ABLLS®-R) and Capturing the Motivation of Children with Autism. He has also produced several instructional DVDs related to effective treatment for children with autism. His workshops are based on research and findings within the field of applied behavior analysis, utilizing the conceptual framework of verbal behavior as developed by BF Skinner in 1957. Parents, families, early intervention programs, preschool programs and school districts benefit from his trainings across the country and abroad.

About the AFLSTM Workshop:

The AFLSTM introductory workshop will provide participants with the knowledge, skills, and tools to analyze and track a learner's functional living skills and develop an individualized intervention program to help a learner become less dependent upon assistance from others. Individuals of all ages need to learn many critical functional living skills in order to successfully participate in a wide range of home, school and community-based activities. The Assessment of Functional Living Skills (The AFLSTM) reviews over 735 skills in 24 functional areas such as traveling in the community, making purchases, seeking assistance as required, preparing meals, helping with household chores, and participating in social and leisure activities. Participants will learn how to conduct an AFLS assessment and transfer the results to the skills tracking grids. An emphasis will be placed on helping parents, other caregivers, and educators identify and prioritize functional skills that their learner needs to develop. Additionally, practical and easy to implement methods will be discussed to help learners develop these skills without taking more time than is currently required to perform these tasks. By identifying and prioritizing some learning targets for daily activities, a quick and significant impact on an individual's ability to independently perform specific skills can be made. A major emphasis will be placed on learning how to break down tasks into easy-to-teach steps (task analysis). Participants will learn strategies to support and enhance the learner's motivation to participate in the tasks. Additionally, methods for using and then fading prompts as those skills are learned will be demonstrated. A review of videos showing parents teaching various functional living skills to their children in the home and community will also be provided.

Learning Objectives:

Participants will be able to:

1. Identify the differences between functional and basic/conceptual skills
2. Identify 3 broad clusters of functional skills
3. Identify at least 24 specific skill repertoire areas of functional skills
4. Identify safety precautions that must be implemented when assessing a learner's functional skills
5. Score the AFLS, complete the tracking grids for learners and update an existing assessment
6. Conduct a task analysis of functional and common daily activities
7. Select and prioritize targets to include in a learner's functional skills intervention program
BEHAVIOR ANALYSTS INC. KANSAS CITY, MO AFLSTM REGISTRATION FORM

Deadline for advance registration- April 22, 2013

- AFLS Workshop Cost: $215.00 per person (Each registrant will receive an AFLSTM Guide and 3 separate protocols- Basic Living Skills, Home Skills, Community Skills)
